

Your gateway to everywhere

WELCOME TO THE WORLD OF PAYMENT OPPORTUNITIES

A place without boundaries with Computop, your payment service provider for Global Omnichannel Payments. With us you can go anywhere ...

... TO ALL THE COUNTRIES WHERE YOU'D LIKE TO SELL.

We make sure that, in terms of payments, it makes no difference whether you sell on your doorstep, in the USA, China or Europe.

We are familiar with regional payment preferences and legal peculiarities and can advise which of our 350 payment options should be used in which country.

... THROUGH ALL CHANNELS THAT ARE RELEVANT FOR YOUR TARGET GROUP.

Omnichannel payments are becoming more and more important. We provide you with compliant and secure solutions for all channels.

These include e-commerce, point of sale (POS), m-commerce and mail & telephone order (MOTO) through a single platform.

... AND YOU CAN ALWAYS BANK ON US.

We're your professional provider for fraud prevention and risk management. And we're PCI DSS-certified.

Technologies such as biometric authentication and self-learning analysis tools further enhance security and convenience, both for retailers and consumers.

Your advantages at a glance:

100%

100% OWNER-MANAGED AND INDEPENDENT.

Short decision paths, fast development and implementation. We take care of our customers - not shareholder interests!

+350

OVER 350 PAYMENT METHODS WORLDWIDE.

A tailor-made selection of payment methods for every market is the key to success in international e-commerce. We can advise which payment method best suits your business in which country.

FLEXIBLE, INDIVIDUAL SOLUTIONS.

Customized payment solutions are our speciality. Our highly skilled and experienced development and project management teams guarantee a fast and frictionless realization of your payment project.

PERSONAL, COMPETENT SUPPORT.

All questions regarding the integration and ongoing operation of our payment solutions are answered exclusively in-house by experienced payment consultants.

+ 20

OVER 20 YEARS OF EXPERIENCE.

Computop has known the market since its inception - and has often had a significant influence on it. Since 2001 we have been implementing European payment pilot projects for major brands such as VISA, Mastercard and PayPal.

SAFETY AND TECHNOLOGY „MADE IN GERMANY“.

The Computop Paygate payment platform was developed entirely by our own employees. The principle „no outsourcing“ also applies to the maintenance of our systems.

FREE CHOICE OF ACQUIRER.

As our client, you receive our neutral advice and the freedom to choose the financial partner that best suits your business.

REAL OMNICHANNEL TRANSACTIONS.

Computop Paygate combines e-commerce, international trade, mobile shopping and mail/telephone order (MOTO) in one integrated payment platform. Sophisticated analysis and reporting tools give you full access to your transactions from all channels and markets.

PASSIONATE ABOUT POINT OF SALE.

Highly secure POS transactions are an important building block in omnichannel payment processing. Therefore, Computop was the first PSP in Germany to be PCI P2PE (Point-to-Point Encryption) certified.

GLOBAL PLAYER.

Headquartered in Germany and with locations in China, England and the USA, we serve numerous large international companies from a wide range of industries.
